

THE NO PATIENT LEFT ALONE ACT

SENATE FILE 512 / HOUSE FILE 666 AND SF2579/HF2799

"My stroke was misdiagnosed because my husband wasn't allowed in with me to advocate for me."

"My mom had to apply for a job at the nursing home just to see my dad."

"I have had several surgeries to remove tumors, I walk in alone."

"I had a miscarriage and had to go to the hospital for heavy bleeding. My husband wasn't allowed to be with me on the worst day of our lives,"

"My husband had cancer, our child was not allowed to see him. If I couldn't find childcare, I couldn't visit because they wouldn't let him in."

"My son-in-law was burned in a house fire & spent months in a burn unit on multiple pain meds. They wouldn't let my daughter into the room when doctors came. He couldn't remember what the doctors said and signed many consents without a clue what he was signing."

Real stories, real Minnesotans.
Everyone deserves support.
